

## NISSAN E.DAMS - KEY TEAM INFORMATION

### Team Name

Nissan e.dams

### Team Biography

Nissan made its all-electric racing debut in season five (2018/19) of the ABB FIA Formula E championship. In this first season, the team finished fourth in the teams' standings with six podiums, five pole positions and 16 Super Pole qualifying appearances between Sebastien Buemi and Oliver Rowland, making Nissan e.dams the best qualifying team of the season. It ended the campaign with a maiden victory during the final race weekend in New York.

The team further improved their results in season six (2019/20), taking second in the teams' championship, scoring one victory, five podiums, a pole position, and making six consecutive Super Pole qualifying appearances.

Nissan is the first Japanese manufacturer to enter the series and is a world-leading expert in the design and manufacture of all-electric vehicles. With over 500,000 Nissan LEAF vehicles sold since the model debuted in 2010, Nissan has made use of its existing EV experience to develop its Formula E race car.

In turn, the lessons learnt on the track help shape the next generations of EVs from the Japanese car maker, with the stylish, high-performance Ariya all-electric crossover SUV set to launch in 2021.

Nissan competes in Formula E to help demonstrate the power and exciting performance of its zero-emission EV technology. For season seven, the team has retained drivers Sebastien Buemi and Oliver Rowland in cars #23 and #22, respectively.

## SEBASTIEN BUEMI

### Overview

- Sebastien has driven in Formula E since the start of the championship.
- In the 2015/2016 season he took the FE driver's championship and holds the series' records for the most wins, most pole positions, fastest laps, and several others.
- Sebastien took Nissan's maiden Formula E win in New York and finished in the runner-up spot in the driver's championship in our debut season (2018/2019).
- In our second season - Sebastien added 4 more podiums to his tally, finishing 4th in the championship and helping Nissan e.dams achieve second in the teams' standings.
- Notable Formula E results with Nissan:
  - Season five (2018/2019): One win, three podiums, and three pole positions. Won Formula E's Best Qualifying Driver Award
  - Season six (2019/2020): Four podiums

### Previous History

- Runner up in 2007 Formula 3 Euro Series and 2008 GP2 Series Asia
- Joined Red Bull as an F1 test driver in 2009 before racing with Toro Rosso full time from 2009-2011

NISSAN  INTELLIGENT MOBILITY

RICHARD MILLE
